

On examination note:

- Midgravitational line
- Lateral body line
- Position of feet
 - Pronation
 - Supination
 - Levelness of tibial tuberosities
- Levelness of patellae
- Anterior superior iliac spines
 - Level?
 - Anteroposterior: rotational prominence
- Prominence of hips
- Iliac crests, levelness
- Fullness over iliac crest
- Relation of forearms to iliac crests
 - One longer
 - Anteroposterior relation
 - Nearness to body
- Prominence of costal arches
- Thoracic symmetry or asymmetry
- Prominence of sternal angle
- Position of shoulders
 - Level or unlevel
 - Anteroposterior relations
- Prominence of sternal end of clavicle
- Prominence of sternocleidomastoid muscles
- Direction of symphysis menti
- Symmetry of face (any scoliosis capitis)
- Nasal deviation
- Angles of mouth
- Level of eyes
- Level of supraciliary arches (eyebrows)
- Head position relative to shoulders and body
