

*Atlas of Amputations and Limb Deficiencies:
Surgical, Prosthetic, and Rehabilitation Principles, Third Edition*

Editors: Douglas G. Smith, MD
John W. Michael, MEd, CPO
John H. Bowker, MD

Part I Introduction

Chapter 1	History of Amputation Surgery and Prosthetics
Chapter 2	General Principles of Amputation Surgery
Chapter 3	Vascular Disease: Limb Salvage Versus Amputation
Chapter 4	Infection: Limb Salvage Versus Amputation
Chapter 5	Tumor: Limb Salvage Versus Amputation
Chapter 6	Trauma: Limb Salvage Versus Amputation
Chapter 7	Wartime Amputee Care

Part II The Upper Limb

Chapter 8	Kinesiology and Functional Characteristics of the Upper Limb
Chapter 9	Body-Powered Components
Chapter 10	Harnessing and Controls for Body-Powered Devices
Chapter 11	Components for Electric-Powered Systems
Chapter 12	Control of Limb Prostheses
Chapter 13	Partial Hand Amputation: Surgical Management
Chapter 14	Partial Hand Amputation: Prosthetic Management
Chapter 15	Wrist Disarticulation and Transradial Amputation: Surgical Management
Chapter 16	Wrist Disarticulation and Transradial Amputation: Prosthetic Management
Chapter 17	The Krukenberg Procedure
Chapter 18	Elbow Disarticulation and Transhumeral Amputation: Surgical Management
Chapter 19	Elbow Disarticulation and Transhumeral Amputation: Prosthetic Management
Chapter 20	Amputations About the Shoulder: Surgical Management
Chapter 21	Amputations About the Shoulder: Prosthetic Management
Chapter 22	Prosthetic Training
Chapter 23	Brachial Plexus: Surgical and Prosthetic Management
Chapter 24	Aesthetic Restoration
Chapter 25	Bilateral Upper Limb Prostheses
Chapter 26	Prosthetic Adaptations in Competitive Sports and Recreation
Chapter 27	Future Developments: Hand Transplantation
Chapter 28	New Developments in Upper Limb Prosthetics

Part III The Lower Limb

Chapter 29	Normal Gait
Chapter 30	Amputee Gait
Chapter 31	Visual Analysis of Prosthetic Gait
Chapter 32	Energy Expenditure of Walking in Individuals With Lower Limb Amputations
Chapter 33	Prosthetic Suspensions and Components
Chapter 34	Amputations and Disarticulations Within the Foot: Surgical Management
Chapter 35	Amputations and Disarticulations Within the Foot: Prosthetic Management
Chapter 36	Ankle Disarticulation and Variants: Surgical Management
Chapter 37	Ankle Disarticulation and Variants: Prosthetic Management
Chapter 38	Trans tibial Amputation: Surgical Management
Chapter 39	Trans tibial Amputation: Prosthetic Management
Chapter 40	Knee Disarticulation: Surgical Management
Chapter 41	Knee Disarticulation: Prosthetic Management
Chapter 42	Trans femoral Amputation: Surgical Management
Chapter 43	Trans femoral Amputation: Prosthetic Management
Chapter 44	Hip Disarticulation and Trans pelvic Amputation: Surgical Management
Chapter 45	Hip Disarticulation and Trans pelvic Amputation: Prosthetic Management

Chapter 46	Translumbar Amputation: Surgical Management
Chapter 47	Translumbar Amputation: Prosthetic Management
Chapter 48	Physical Therapy
Chapter 49	Bilateral Lower Limb Prostheses
Chapter 50	Prostheses for Sports and Recreation
Chapter 51	Physical Therapy for Sports and Recreation
Chapter 52	Research in Lower Limb Prosthetics

Part IV Management Issues

Chapter 53	Future Developments: Osseointegration in Transfemoral Amputees
Chapter 54	Musculoskeletal Complications
Chapter 55	Skin Problems of the Amputee
Chapter 56	Chronic Pain Management
Chapter 57	Psychological Adaptation to Amputation
Chapter 58	The Art of Prosthesis Prescription
Chapter 59	Rehabilitation Without Prostheses
Chapter 60	Special Considerations: Consumer Movement

Part V Pediatrics

Chapter 61	The Limb-Deficient Child
Chapter 62	Terminology in Pediatric Limb Deficiency
Chapter 63	Developmental Kinesiology
Chapter 64	General Prosthetic Considerations
Chapter 65	Psychological Issues in Pediatric Limb Deficiency
Chapter 66	Occupational Therapy
Chapter 67	Physical Therapy
Chapter 68	Acquired Amputations in Children
Chapter 69	Hand Deficiencies
Chapter 70	Radial Deficiencies
Chapter 71	Longitudinal Ulnar Deficiency
Chapter 72	Humeral Deficiencies
Chapter 73	Foot Deficiencies
Chapter 74	Fibular Deficiencies
Chapter 75	Tibial Deficiencies
Chapter 76	Femoral Deficiencies
Chapter 77	Absence of Lumbar Spine and Sacrum
Chapter 78	Multiple Limb Deficiencies
Chapter 79	Surgical Modification of Residual Limbs

Appendix: Terminology in Acquired Limb Loss
